Mirpur 1, Sha Ali Thana - 1206, Dhaka, Bangladesh.

OBJECTIVE

Actively seeking a position where my knowledge and skills will be utilized to achieve rewarding and beneficial results for the organization as well as myself with a vision to become potential personnel. I am willing to enhance my analytical skills and knowledge to bring out the maximum output.

EXPERIENCE

- Ambala IT**  April, 2026
Assistant SQA Engineer Dhaka, Bangladesh
 - Execute **Manual Testing** for web-based applications to ensure functionality, usability, and performance.
 - Identify, document, prioritize, and track software defects using bug-tracking tools.
 - Perform **Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, and System Testing.**
 - Prepare comprehensive **Test Plans, Test Cases, Bug Reports, Test Execution Reports,** and QA documentation.
 - Verify bug fixes and ensure defects are resolved before production deployment.
 - Validate REST APIs using tools such as **Postman.**
 - Ensure software quality throughout the **Software Development Life Cycle (SDLC)** and **Software Testing Life Cycle (STLC).**
- Dream71 Bangladesh Ltd.**  May, 2025 - Sept, 2025
Software Quality Assurance Engineer Internship Dhaka, Bangladesh
 - Performed comprehensive **manual testing to identify, document, and verify software defects across web applications.**
 - Executed **User Acceptance Testing (UAT)** to validate business requirements and ensure software met end-user expectations.
 - Performed **API testing to validate endpoint functionality, request/response accuracy, and system integration.**
 - Collaborated with developers, business analysts, and project stakeholders to resolve defects and improve software quality.
- Picasa Limited**  Jan, 2024 - Dec, 2024
Customer Relationship Executive
 - Built and maintained strong relationships with a diverse client base, ensuring high customer satisfaction.
 - Handled inquiries and complaints efficiently with a 95
 - Utilized CRM tools to manage customer data, track interactions, and generate reports.
 - Conducted regular follow-ups and feedback collection, supporting loyalty programs.

EDUCATION

- Daffodil International University** 2019 - 2023
B.Sc in Software Engineering (SWE) Dhaka, Bangladesh
 - GPA: 3.23/4.00
- Government Azizul Haque College, Bogura** 2018
Science Bogura, Bangladesh
 - GPA: 4.25/5.00
- Bogura Cantonment Public School and College, Bogura** 2016
Science Bogura, Bangladesh
 - GPA: 5.00/5.00

PROJECTS

• Project A: Tally Boi

Role: Assistant SQA & Automation Engineer

- Designed, reviewed, and executed detailed **test cases**, **test scenarios**, and **test plans** based on business requirements.
- Conducted **Functional Testing**, **Regression Testing**, **Smoke Testing**, **Sanity Testing**, and **User Acceptance Testing (UAT)**.
- Validated application workflows, business logic, and end-to-end system functionality.
- Contributed to improving product quality by identifying critical functional, UI/UX, and integration issues before release.
- Performed comprehensive **Manual Testing** for web-based accounting and billing applications.
- Collaborated with developers, business analysts, and product managers to ensure high-quality software delivery.
- Identified, documented, and tracked software defects, ensuring timely resolution with the development team.

• Project B: LMS (Learning management System)

Role: Assistant SQA & Automation Engineer

- Performed end-to-end **Manual Testing** of the Learning Management System (LMS) across Admin, Instructor, and Student portals.
- Validated core LMS modules, including **Course Management**, **Assignments**, **Quizzes**, **Discussions**, **Announcements**, **Attendance**, **Grading**, **Certificates**, and **Reports**.
- Identified, documented, prioritized, and tracked software defects using a defect management tool, ensuring timely resolution.
- Developed and maintained **automation test scripts** using **Playwright** for regression and smoke test scenarios.
- Collaborated closely with developers, UI/UX designers, business analysts, and product managers to improve software quality.
- Verified production bug fixes and performed regression testing before software releases.
- Tested course creation, enrollment, content management, assessments, grading workflows, and progress tracking.

• Project C: SIS (Student Information System)

Role: Assistant SQA & Automation Engineer

- Validated the complete **student lifecycle**, including admission, enrollment, promotion, graduation, and alumni records.
- Validated **examination workflows**, including exam scheduling, marks entry, GPA/CGPA calculation, grade processing, and result publication.
- Tested **fee management**, invoice generation, payment processing, scholarship, waiver, and due collection modules.
- Automated repetitive regression scenarios using **Playwright**, reducing manual testing effort and improving release quality.
- Collaborated closely with developers, UI/UX designers, business analysts, and product managers to improve software quality.
- Tested **teacher**, **student**, **guardian**, and **staff portals** to ensure proper role-based access and permissions.
- Tested course creation, enrollment, content management, assessments, grading workflows, and progress tracking.
- Created and maintained detailed **test cases**, **bug reports**, **test execution reports**, and **QA documentation** throughout the project lifecycle.
- Performed cross-browser, responsive, and usability testing to ensure a seamless experience across multiple devices.

• Project D: YKK Management System (Yoshida Kōgyō Kabushikigaisha)

Role: Assistant SQA & Automation Engineer

- Performed end-to-end **Manual Testing** of enterprise modules, including Vehicle Management, Employee Management, Asset Management, and Administrative Operations.
- Designed, reviewed, and executed comprehensive **test cases**, **test scenarios**, and **test plans** based on functional and business requirements.
- Conducted **API Testing** using **Postman** to validate REST APIs, request/response data, and system integrations.
- Performed cross-browser and responsive testing to ensure consistent functionality across multiple browsers and devices.
- Prepared and maintained QA artifacts, including **Test Plans**, **Test Cases**, **Bug Reports**, **Test Execution Reports**, and **Release Verification Reports**.
- Make a user manual for understanding overall system.
- Identified, documented, prioritized, and tracked defects, collaborating closely with developers to ensure timely resolution.

- Verified production bug fixes and performed regression testing before each software release.

• Project E: Microfinplus

Role: Assistant SQA & Automation Engineer

- Tested **member registration**, KYC verification, group (Samity) management, and branch operations to ensure data accuracy.
- Designed, reviewed, and executed detailed **test cases**, **test scenarios**, and **test plans** based on business and regulatory requirements.
- Tested **daily collection** processes, installment payments, overdue calculations, penalties, and transaction reconciliation.
- Conducted **API Testing** using **Postman** to validate financial transactions, member services, and system integrations.
- Prepared and maintained QA artifacts, including **Test Plans**, **Test Cases**, **Bug Reports**, **Test Execution Reports**, and **Release Verification Reports**.
- Make a user manual for understanding overall system.
- Verified role-based access control (RBAC) for Head Office, Branch Manager, Field Officer, Cashier, and System Administrator.
- Tested **MRA-compliant reports**, branch reports, member reports, and loan portfolio reports for data accuracy and consistency.
- Performed **Functional**, **Regression**, **Smoke**, **Sanity**, **Integration**, and **User Acceptance Testing (UAT)** before each software release.
- Performed **Database Validation** using **SQL** to verify financial records, loan balances, repayment history, and accounting data.

• Project F: Halal Flex

Role: Assistant SQA & Automation Engineer

- Performed end-to-end testing of **product catalog**, **order processing**, **inventory management**, and **customer management** modules.
- Validated complete **purchase-to-delivery workflows**, ensuring accurate order status updates and transaction processing.
- Tested **payment gateway integration** and verified successful payment processing, refunds, and transaction history.
- Developed and maintained **Playwright automation scripts** for critical user journeys, including login, product purchase, and checkout.
- Verified shopping cart functionality, coupon/discount application, tax calculations, and invoice generation.
- Make a user manual for understanding overall system.
- Identified, documented, and tracked software defects while collaborating closely with developers for prompt resolution.
- Verified product search, filtering, sorting, and category navigation to ensure an optimal user experience.

• Project G: Naba Erp

Role: Assistant SQA & Automation Engineer

- Performed end-to-end testing of core ERP modules, including **Finance**, **Procurement**, **Inventory**, **Sales**, **HR**, **Payroll**, and **Reporting**.
- Conducted **API Testing** using **Postman** to verify data synchronization and integration between ERP services.
- Verified approval workflows, role-based permissions, and authorization controls for different user roles.
- integration between ERP services.
- Performed cross-browser and responsive testing to ensure consistent application behavior across supported platforms.
- Participated in Agile/Scrum ceremonies, including sprint planning, daily stand-ups, sprint reviews, and retrospectives.
- Validated complex business workflows across multiple ERP modules to ensure seamless data flow and process integration.
- Ensured software quality throughout the **Software Development Life Cycle (SDLC)** and **Software Testing Life Cycle (STLC)**.

SKILLS

- **Programming Languages:** C++, JS
- **Project Management Software:** JIRA, Trello
- **Database Systems:** SQL, Microsoft Excel
- **Database Management:** MySQL, SQL Server, phpMyAdmin
- **Workflow Automation:** Playwright

- **Cloud Services:** Google Drive, AWS (Basic)
- **Reporting Tools:** Excel, Google Sheets
- **Documentation:** Microsoft Word, Google Docs
- **Communication Tools:** Microsoft Teams, Slack, Zoom, Google Meet

LEADERSHIP EXPERIENCE

- **Leadership Role**

Daffodil International University

- Represented the academic interests and concerns of over 50 students to faculty members.
- Coordinated communication between students and the department regarding academic schedules and announcements.
- Initiative taken or project led

CERTIFICATIONS

- **Course:** [SQA](#)
- **Internship:** [Dream71 Bangladesh Ltd](#)
